Summary

Aspiring Java Full Stack Developer with a strong foundation in HTML, CSS, Bootstrap, JavaScript, and React, along with backend development using Java and Spring Boot. Familiar with building RESTful APIs and integrating frontend applications with backend services. Passionate about building scalable web applications and continuously improving technical skills.

Technical Skills

- Programming Languages: Java | JavaScript
- Frontend: HTML | CSS | Bootstrap | React
- Backend: Spring Boot | Spring Data JPA | REST API
- Database: MySQL | SQL
- Tools: Git | GitHub | VS Code | Eclipse | Spring Tool Suite | Postman

Education

Yeshwantrao Chavan College of Engineering, Nagpur **May 2025**
- BTech – Electronics Engineering
- CGPA – 7.6

Oasis International School, Bhandara **Feb 2021**
- HSC (12th)
- 88.67 %

Jaycees Convent School, Bhandara **Mar 2019**
- SSC (10th)
- 74.60 %

Projects

Student Management REST API
- Developed a RESTful backend application using Java and Spring Boot to manage student records.
- Implemented CRUD API endpoints for creating, retrieving, updating, and deleting student data.
- Integrated Spring Data JPA with MySQL for database operations and data persistence.
- Designed REST API endpoints following standard HTTP methods (GET, POST, PUT, DELETE).
- Tested API endpoints using Postman to verify request handling and responses.
- **Tech Stack:** Java | Spring Boot | Spring Data JPA | REST API | MySQL | Postman

Job Application Portal (JobHunt&Co)
- Developed a React-based job application interface with user login and protected routes.
- Implemented client-side authentication flow using cookies to manage user sessions.
- Integrated REST APIs for authentication and error handling and displaying API-driven error messages.
- Designed responsive UI with form handling and validation.
- **Tech Stack:** React.js, JavaScript, REST API, Cookies, React Router DOM

To-Do List Web App
- Developed a dynamic To-Do List application using HTML, CSS, and JavaScript.
- Implemented features like adding, deleting, saving, and marking tasks as complete.
- Used DOM manipulation and event handling to manage user interactions.
- Designed a responsive and user-friendly interface.
- **Tech Stack:** HTML, CSS, JavaScript, DOM Manipulation
- **Project:** https://to-do-list-web-app-navy.vercel.app/
